## INTRODUCTION

**Fundament S.P.C. ("FSPC")** is a grade **A** contractor registered with the Ministry of Commerce and Industry, Kingdom of Bahrain. We are also registered as grade **A** contractor with the Ministry of Works & Ministry of Housing. We are also ISO 9001:2015 (Quality Management System) and OHSAS 18001:2007 (Occupational Health and Safety) certified. We have completed a number of multi-storey and housing projects in the past and currently working on several major projects all over the Kingdom of Bahrain.

## OUR SERVICES:

We have assembled the expertise and resources to address every stage of the construction life cycle, from planning and design to construction. Being actively involved in the industry since a decade, we understand the construction needs of the emerging economy of the Kingdom. We have underpinned our strength in construction with a global capability in professional services. As a leader, we are setting the industry standard for ethics, safety and sustainability. We specialize in the areas of:

- Major Building contracts
- Major Electrical contracts
- Post-tensioning contracts
- Value Engineering services
- Interior works
- Building material trading (import/export)

## OUR STRENGTH

FSPC prides itself in its unconditional and continual pursuit of improvement. With an array of highly skilled manpower lead by a team of professional management, FSPC is adequately equipped to take on projects of varied nature and sizes. We also benefit from having a strong supply-chain mechanism in place to ensure timely, cost effective and quality approved material and machines.

At FSPC we believe in partnering with our clients to achieve a win-win outcome. Hence, we engage with all stakeholders very closely right from project inception stage until it reaches successful completion.

Our engineering and project team endeavors to work in close coordination with the consultants to maintain synergy between all stakeholders and maximize cost efficiency.

By virtue of our constant and zealous pursuit for excellence, we strengthen partnerships with our clients, suppliers and employees alike.

## OUR MISSION

Provide technically advanced and robust construction services to meet the demands of a challenging structural engineering sector by providing cost and time effective solutions and by pursuing continual improvement in all aspects of our business.

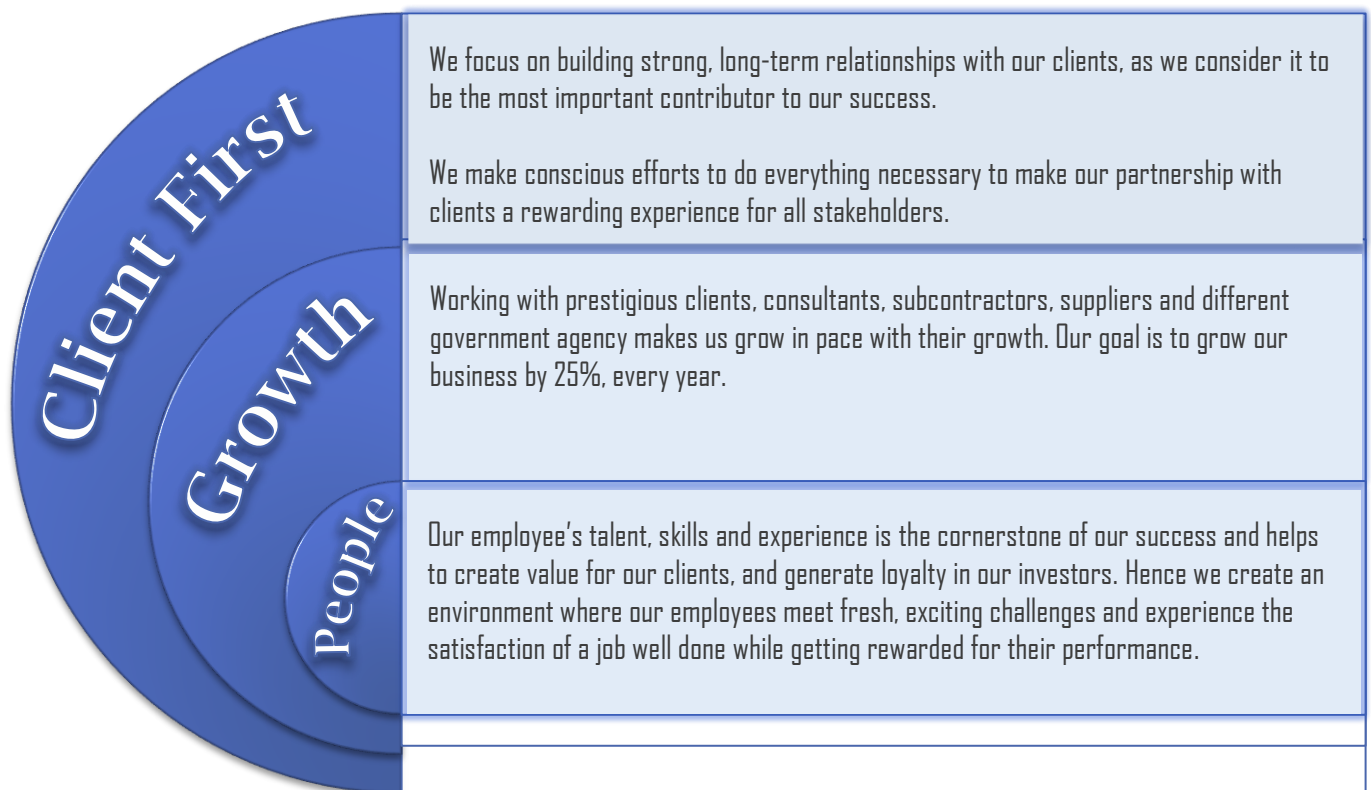

## OUR VISION

To be recognized as the most reliable partner for the construction industry, providing timely and cost effective services and be a market leader in the field of building construction.

## SAFETY COMMITMENT

Providing a safe and incident-free work environment for our employees is an integral part of FSPC goal to achieve operational excellence. FSPC ensures strict adherence to all safety norms and strives to achieve incident free record at all times.

## OUR CORE VALUES

#### QUALITY POLICY AND OBJECTIVES

Understanding our clients business requirements to ensure highest quality service and build mutually beneficial partnership

Assuring clients on the qualification, ability and professionalism of our team members to deliver at every aspect of the projects.

We believe in being a team player and extending our support and cooperation in all aspects of the project.

Our environmental, health and safety policies are a priority specifically at job sites to avoid even a single accident from occurring. We focus on improving our safety standards by educating and involving workforce in the importance of safety.

#### MANAGEMENT OBJECTIVES

Enhance client satisfaction: Reduce customer complaints by 20% annually

Maximize Employees contribution to achieve Organization's Vision and Objectives.

Widen Organization's capabilities to meet client requirements

Minimize negative impact on the environment due to organization's activities.

Sustain, where possible improve, profitability of the business operation.

## OPERATIONAL MATRIX

### PROJECT INITIATION

- Review the project scope
- Review the issued for construction drawings, addendums, general and particular specifications
- Arrange all necessary permits, insurance, temporary services, site office, telephone, fax, internet lines
- Approval of site facilities plan by the consultant or client
- Provide site fencing, signs & project sign board
- Review the complete environmental requirements, health and safety on specific project site
- Final selection and approval of proposed project team

### PROJECT PLANNING

- Create detailed construction schedule with accuracy in sequencing of activities, analysis of manpower production and equipment usage, correct activity duration, identify critical path, organize the project calendar, time of operation
- Resource plan to identify the amount of labor, equipment and materials needed
- Financial plan to quantify the financial expenditure incurred for completion, establish cash - flow
- Quality plan to set targets and list quality assurance and quality control methods
- Establish deliverables i.e. material schedule and submittals, shop drawing schedule and submittals, major equipment installation at site
- Create project environmental, health and safety plan for implementation

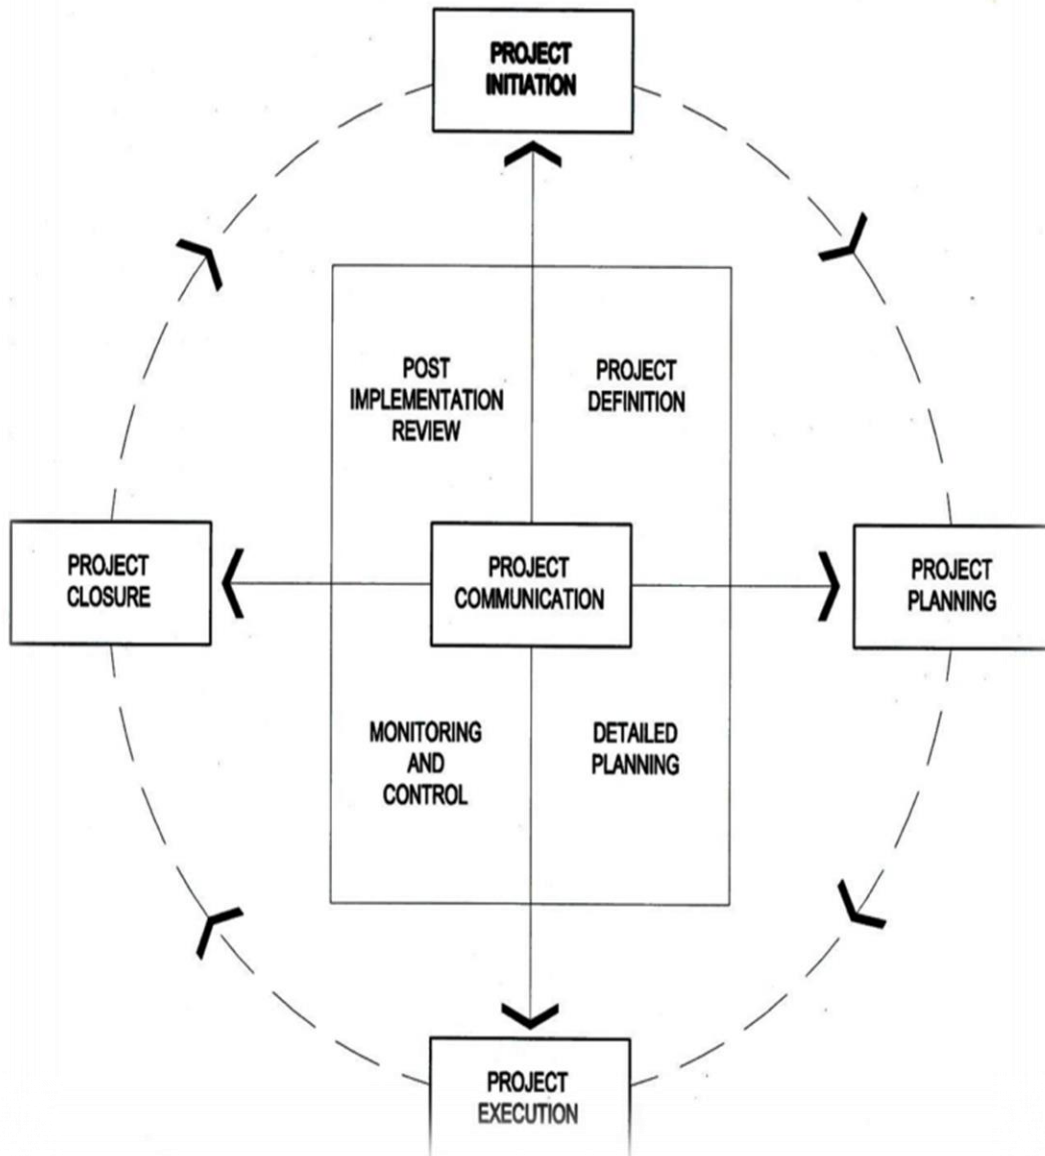

### PROJECT EXECUTION

- Time Management - tracking and recording time spent completing project tasks against the project plan
- Cost Management - identifying and recording costs (i.e. expenses) against the project budget
- Quality Management - reviewing the quality of deliverables and management process
- Change Management - reviewing and implementing requests for changes/variations of the project
- Issue Management - identifying and resolving project issues, wherever possible
- Communication Management - keeping project stakeholders informed of project progress, risk and issues

### PROJECT CLOSURE

- Testing and commissioning of all electro-mechanical works to make sure it is fit for purpose
- Hand over all keys of the building with the key plan
- Final sign off of any balance non-conformance work from contractor, subcontractor and suppliers as part of the quality assurance policy of Fundament SPC
- Submission of as-built drawings to consultant or client
- Submission of operational and maintenance manual
- Submission of all warranty certificates
- Signing of the starting date of the defects liability period of all parties involve

Sub: Letter of Appreciation

Dear Mr. Ali,

Greetings!

On behalf of Arab Architects, we would like to commend you and your site team for your cooperation and great performance during the casting of raft foundation of Al Tijaria Tower which was conducted on Friday, 18.08.2017 till Saturday, 19.08.2017.

Your Engineers and site team showed full coordination and successfully completed the activities as per schedule.

Once again, thank you and we look forward to a continuous cooperation from your team to execute all the activities at site and complete the project in a timely manner.

Sincerely,

For Arab Architects
